SUMMARY

- Computer Engineering student with strong interest in Python development, backend systems, and open-source software. Active contributor to the SWC/GCNU Neuroinformatics Unit and passionate about building practical projects and participating in hackathons.

EDUCATION

- **Shah & Anchor Kutchhi Engineering College, Mumbai**
Bachelor of Engineering in Computer Engineering 2024 – 2028 | CGPA: 8.1/10
- **KJ Somaiya College of Science and Commerce, Mumbai**
HSC 2022 – 2024

SKILLS

- **Programming Languages:** Python, JavaScript
- **Core Concepts:** REST API Fundamentals, Git Version Control, Problem Solving & Debugging
- **Tools & Technologies:** Git, Linux, MySQL

PROJECTS

- **Animal Encyclopedia (Forest Land SDG Project)**
 - Developed an informational platform categorizing animals such as mammals, birds, reptiles, amphibians, fish, insects, and mollusks.
 - Structured and organized animal data to create an easily navigable encyclopedia-style system.
 - Highlighted biodiversity and the role of wildlife in environmental sustainability and ecosystem balance.

OPEN SOURCE CONTRIBUTIONS

- **Open Source Contributor — SWC/GCNU Neuroinformatics Unit**
 - Contributed to Python-based neuroinformatics tools by resolving issues and submitting pull requests.
 - Collaborated with maintainers using Git and GitHub workflows including branching, commits, and code reviews.
 - Improved documentation and code organization to enhance usability and maintainability.
 - Applied Python programming and debugging skills to support development and feature improvements.

HACKATHONS & ACHIEVEMENTS

- Successfully cleared Round-1 of the Smart India Hackathon by collaborating with a team to propose a technical solution for a real-world problem statement.
- AWS Hackathon Achievement: Advanced to Round 1 of an Amazon Web Services (AWS) Hackathon, focusing on the conceptualization and technical design of cloud-based solutions.
